

13th September 2021

Dear Parents and carers,

Inspection of a Good School - Ofsted Report June 2021

We are pleased to share with you our Ofsted report following a visit to school on 29th and 30th June 2021.

[Inspection of a Good school - Ofsted June 2021](#)

Throughout the visit our children shone and verbal feedback from the inspection team throughout the two days was very positive; recognising the journey the school has been on over the past few years.

The two development points identified by the team, were described as small steps on our journey to outstanding. We have been proactive in working on these and as a result have invested in new reading books to support children in applying their phonic knowledge within the Read Write Inc. phonics scheme, the implementation of these will take place over the Autumn Term.

Our history curriculum has been reviewed following the feedback and now explicitly sets out what pupils should know and remember in each year group, so that younger pupils are well prepared for their further studies in key stage 2.

We thank you for your continued support.

Kind Regards,

Shamara Sadler
Principal
